

Co-op Customers Are Growing Bigger Crops! Co-op Customers Need Bigger Bins!

Announcing The NEW Large Diameter Westeel Bin Program

Participating CO-OP™ Agro Retailers in the bin business are pleased to announce the beginning of our new partnership with Wall Grain Handling Systems. This partnership will enable us to provide a turnkey solution for Co-op customers who need big Westeel bins (30' in diameter and larger) constructed on farm.

While CO-OP™ retailers have become the #1 reliable supplier of Westeel galvanized bins to Co-op customers in Western Canada, we realize it sometimes takes very specialized expertise and know-how to construct the large diameter bins our customers are asking for. We are committed to providing the very best quality products and services you have come to expect at your local Co-op. This new partnership is another reflection of that commitment.

Some of the advantages of this partnership:

- Wall Grain Handling Systems is the #1 supplier and contractor of large diameter bins in Western Canada.
- Wall Grain has more than 15 bin and concrete crews available to provide a complete turnkey solution for your farm.
- Wall Grain has the most experience of any large diameter bin builder in Western Canada.
- Co-op customers will continue to deal directly with their local Co-op retail.
- Co-op customers will still be invoiced by their local Co-op. Customers can choose from a wide range of financing options available.
- Co-op customers will continue to be eligible to receive Equity and Cashback benefits on their purchase.

* Available at participating CO-OP™ Agro retailers only.
